III-River Difficulty Classification	272
IV-River Permits	273
V-Maps	274
VI-River Flow Information	275

Kayaking in the California Fast Lane

\$12.95

CALIFORNIA possesses the largest, most diverse concentration of accessible high quality whitewater in the world, and Chuck Stanley and Lars Holbek, two of the country's premier whitewater boaters, have written a guide to the best of it.

Drawing upon more than twenty years of combined experience, Stanley and Holbek have described 142 separate runs, many of which are in print here for the first time. The whitewater ranges from mildly challenging to downright hair-raising, and the descriptions are profusely illustrated — with maps, photos, and the unavoidable quota of whitewater lies.

For the intermediate to advanced California boater, with an interest in exploring some of the state's lesser-known canyons, this is the definitive word.
